ELMO CONSTABLE CAUGHT ROBBERS

THIEVES ENTER GATES MERCANTILE STORE YESTERDAY

NEIGHBOR SAW LIGHT

Telephones to Authorities—Two Men Are Caught as They Attempt to "Bum Train to Omaha.

At 2 o'clock Sunday morning two thieves broke into the rear window of the Gates General Mercantile Store at Elmo and for two hours looted the shelves of the dry-goods department, taking only the best articles found on the counters. One hour later Constable O. V. Knuckolls arrested the thieves as they were attempting to board the 5:30 o'clock train. He obtained a confession of the crime from one of the men. The other man denied all knowledge of the robbery.

The men were brought to Maryville yesterday morning by the Elmo men and were placed in the county jail. They gave their names as George Clark and Frank Randall. Clark is a tall, slim man, 40 years of age. He claims that he lives in California and that this is his first criminal offense. Randall says he is 42 years old and lives in Illinois. He is a short heavy set man. Randall denies that he has ever been guilty of a criminal offense.

Both men say that they are laborers and were on their way to Omaha. They also claim that they have been working in the harvest fields.

Clark claims that he did the robbery unassisted and that he saw Randall for the first time when he went to the railroad station to board the train. The authorities, however, claim that both men are connected with the robbery.

When first arrested both the men denied knowledge of the crime but after further questioning admitted their guilt. The two men then led I. T. Gates, the proprietor of the store, Constable Knuckolls, Ross Joy and Wm. Reece to a place half mile north of town where they had hid the loot along the railroad tracks.

The stolen goods were stored in two suit cases which were also stolen. Mr. Gates estimated the value of the goods stolen at $150. There were fifteen pair of shoes, a dozen silk shirts, ten pairs of trousers and some overalls. The loot was the choice articles of the store as the robbers spent two hours in picking out the best articles.

At 3 o'clock Mrs. Robert Kinman, who lives north of the Gates store, noticed a light flash on and off. There have been several robberies committed in Elmo of late and so she immediately telephoned the central operator and told of the light. Ira Gates' phone is on the same line as the store phone and so the central operator notified Ross Joy who told Mr. Gates and Constable Knuckolls.

By the time the men arrived at the Gates store the thieves had made their exit by way of the rear window. A line- call was made to all Elmo people and the surrounding towns.

Mr. Joy and Mr. Knuckolls went down to the railroad station and discovered two men hiding behind the stockyard fence. The men were ordered to throw up their hands. The two at first denied all knowledge of the crime and claimed that they were beating their way to Omaha and were waiting for the train. They did not give any reason for being in Elmo at the time. After being questioned for some time one of the men confessed to robbing the Gates store.

One man was held by the Blanchard police for the robbery. He was found riding the blinds on the 5:30 Wabash which was going north. This man was afterward released.

Sheriff Roach said this morning that charges of robbery and larceny would be filed against the men today.

John Murrin spent yesterday at the home of his son, Dr. John Owen Murrin, and family, in Atchison, Kan.

Is Named Delegate To National Meeting

Ova B. Clauson of Conception Junction Selected by State Convention of Rural Carriers

Ova B. Clauson of Conception Junction was elected as one of the delegates to the national convention of rural letter carriers to be held at St. Paul next month, at the closing session of the state association at Kirksville Saturday.

H. J. Lyons of Warrensburg was elected president of the state association. The meeting next year will be held in Independence.

Several rural carriers from Nodaway County attended the state meeting at Kirksville.

SHORT AND NARROW SKIRTS THIS FALL

SAYS HARVEY HAINES, BACK FROM NEW YORK.

BUSINESS IS BETTER

Local Merchant Says That The Most Beautiful Girls In The World Are In Maryville.

Milady's skirts this year will be short and narrow, according to a statement made this morning by Harvey L. Haines, who returned Saturday from a two week's buying trip in New York. Fashion bows to comfort and common sense and the long skirt will be a thing more rare than a day in June. Nearly all garments will be lavishly trimmed in fur, and many new materials, entirely different from other seasons, will be found in cloaks, suits, and dresses.

Women's blouses will have the all-over effect and will be forty-five inches in length. Many handsome three-piece suits will also be on the market.

Mr. Haines said that he has never bought such an extensive line of ready-to-wear garments. His purchases this year were large because clothes are so different that last year's garments will look quite out of date.

New York manufacturers have had a dull time of it for the past eighteen months, Mr. Haines said. However, everybody looks forward to a prosperous fall. Merchants are buying heavier than for several seasons. Mr. Haines attributes this to the advanced prices of farm products.

"Everything is looking good," Mr. Haines said. "Business is entirely different from last spring. There is a different feeling. Everybody predicts that the world will enjoy the greatest prosperity when the Dawes plan is accepted and the concensus of opinion is that it will be accepted within the next ten days."

When asked if he noticed any changes in men's styles, Mr. Haines said, "I didn't even look at a man while I was gone. I sell women's clothes."

And when asked if he saw many beautiful girls he said, "You young bucks don't realize what beautiful women are. Why, you should go to New York and then you would find that the most beautiful girls in the world are in Maryville

"A fellow that I knew asked me just what I thought of Maryville, and I told him that I wouldn't trade one-fourth of Maryville for all of Manhattan Island. No siree."

Flaring Up Oil Stove Causes Alarm

An oil stove flaring up caused the fire department to make a run to the home of Judge W. C. Ellison, 311 South Buchanan, about 8 o'clock Saturday night. However, the stove was taken out in the yard and no damage was done.

RADIO SPEECH TO BE RECEIVED HERE

BROADCASTING TO START AT 6:40 O'CLOCK

NOMINEE TAKES CHARGE

Calls Meeting of Democratic National Committee to Outline Plans of Battle—to Stress Three Issues

The Democrat-Forum, cooperating with Harry C. Todd of the Hanamo Telephone Co., will receive the acceptance address of John W. Davis, Democratic presidential candidate, by radio tonight.

The broadcasting from WDAF, the Kansas City Star, will begin at 6:40 o'clock, Maryville time.

A band number will open the notification program at 7 o'clock Clem Shaver, chairman of the Democratic National Committee, then will call the meeting to order for the saying of the invocation. This will be followed by Thomas J. Walsh's official notification address and Mr. Davis' speech of aceptance.

Two musical numbers and the benediction will close the program, which will last for about two hours, ending at 9 o'clock Maryville time.

The Democrat-Forum will have a number of chairs in front of the office for the comfort of those listening to the address.

John W. Davis will sound the keynote of his presidential campaign tonight, and all are invited to come to the Democrat-Forum office and hear him.

Clarksburg, W. Va., Aug. 11.—Assuming direct command of the Democratic ship of state, John W. Davis today formally launched his drive for the White House.

The Democratic nominee took up the party leadership by calling the national committee into session for battle plans, the election of campaign officers, and to hear an appeal for party unity.

The candidate called the meeting and announced he would personally address it.

This action came as a prelude to the formal notification ceremonies tonight.

In his speech of acceptance, the nominee has announced he will stress three great issues in the campaign These are honesty in government, federal economy and religious freedom.

The first undoubtedly will be the keynote of the Davis campaign, and he will strongly advocate reduction in governmental expenditures, further cuts in federal taxes, and more general economy in all government departments.

The religious freedom issue, while still a bone of contention among some Democratic chiefs, has been settled as far as Davis is concerned. His recent pronouncement that he was not, never has been and never will be a member of the Ku Klux Klan has definitely placed him against the Klan.

Elaborate Plans Made For The Clarinda Fair

Educational and Entertainment Features not Neglected in Event Which Will Take Place Next Week

The factors of education and entertainment have been taken into consideration by the committee in charge of the Clarinda fair which will be held in that city August 18 to 22. Money has not been spared and plans for the best fair in the history of the event at Clarinda are under way. Prizes aggregating several thousand dollars have been offered for the various contests of the fair and a large array of free attractions has been arranged.

Clarinda merchants will exhibit their wares at the Exposition building which has been erected for the fair.

Prince of Wales To Be Coolidge's Guest

Washington, Aug. 11—The Prince of Wales who is coming to the United States to attend the international polo matches at New York, will be the guest of President Coolidge at the White House for a few hours during a brief visit to Washington, it was learned here today.

Officers Find Mash Set On Cogdill Farm

Raid Saturday Afternoon Yields Whisky and Mash—Trial Will Be Held Saturday

A five-gallon whisky container with a small quantity of whisky, a ten-gallon mash tub and a one-gallon whisky jug was the loot following a raid on the Elmer Cogdill farm, 1½ miles west of Conception Junction, Saturday afternoon by Steve A. Roach, sheriff, Leo Atherton and Gabe Purcell, deputies.

The officers went to the Cogdill farm about 2 o'clock Saturday afternoon. On seeing the officers approaching the house, the occupants turned over the tub of mash and prepared for a hurried getaway. However, they were intercepted by the officers and Cogdill was brought to Maryville and placed in jail. Yesterday morning, the officers returned to the farm and brought back Mrs. Cogdill, who was placed under arrest. The two were charged with manufacture and possession of intoxicating liquor and were released on bonds of $300 each. They will be arraigned in the circuit court Saturday.

McNamee Commends Attitude Taken Here

Man Who Broadcast the Convention Praises Work Done By Democrat-Forum and Hanamo Company.

H. C. Todd, of the Hanamo Telephone Co., received the following letter today from Graham McNamee, the man who broadcast the Democratic National Convention from New York City. Mr. McNamee speaks highly of the attitude taken by the Democrat-Forum and by Mr. Todd in furnishing the news here in Maryville.

The letter follows:

Dear Mr. Todd:—Your letter of the 16th was not received until yesterday as I went on a vacation immediately following the Democratic National Convention. The letter, pictures, and newspaper clippings certainly show the interest felt in your neighborhood, at least in the proceedings of the convention. I was mighty glad to get them and, I assure you, will use them, particularly the pictures, to the best advantage.

Some of the larger cities might well have followed your example in providing comfort for the radio listeners not fortunate enough to have sets of their own.

If by any chance you get to New York we will be glad to welcome you at Station WEAF.

Very sincerely yours,

(Signed) Graham McNamee.

Conduct Classes In Millinery At Bureau

Miss Lois Martin, Extension Expert, Gives Advanced Class for Club Representatives

Eight women, representatives of five community clubs in the county are attending a millinery school today and tomorrow at the County Farm Bureau office. These women, all of whom have had previous training in schools of this kind, are being given a review of the courses by Miss Lois Martin, expert from the extension service of the University of Missouri.

Last year at about this time Miss Martin conducted a four-day school at which time the fundamentals of millinery were taught. This year the women are receiving advanced instruction in trimming and attractive shapes.

The classes are held daily from 10 to 12 o'clock in the morning and from 1 to 4 o'clock in the afternoon.

The women who are attending the school and the clubs they represent are—Whitecloud, Mrs. Charles Rice and Mrs. Mary Bracken; Myrtle Tree, Mrs. Thomas O'Day; Rockford, Mrs. Lester Reaksecker and Mrs. Ernest Bainum; Lasher, Miss Ella O'Grady and Mrs. William Job, Sr.; and Herron, Mrs. W. O. Griffey.

To Des Moines, Ia.

Mrs. Frank Cummins and little son, Billy, went to Des Moines, Ia., today to visit Mrs. Cummin's parents, Mr. and Mrs. Joe Muelhaupt, Sr., and other relatives, for several weeks.

RUSSIAN SINGERS IN PLEASING PROGRAM

GIVE PRELUDE TO AFTERNOON LECTURE

HONESTY IMPEARTIVE

Government Departments Must Be Kept Clean, Asserts Mrs. Olesen in "Women in Politics"

Hundreds of Maryville people got their first taste of real Russian music at the chautauqua yesterday when the Russian Cathedral quartet appeared in the musical prelude for the afternoon lecture and gave the entire program last night and those who hold the idea that music is a sort of universal Esperanto, which all may understand, despite the difference in tongues, were undeceived.

This made the concert educational, as well as entertaining, for it gave to many who otherwise would not gain it, the knowledge of Tartar influence upon Eastern Europe. The Russian church music sung during the early part of the program was strange to American ears, and seemed to savor of Chinese, but as the program progressed and more familiar music was reached, the musicianship of the singers was better appreciated.

As the advance notices indicated, the striking feature of the concert was the marvelous blending of the four voices, which seemed at times to be one big voice and again reached a pipe organ quality. In solo work, two of the singers stood out above the others in popular favor, the first tenor and the bass. Owing to errors in the printed program, it was hard last night to tell who was singing, but there was no doubt that the shorter tenor, who sang "Somewhere a Voice is Calling," as an encore, and the big bass—who was erroneously billed for a tenor solo—were the favorites last night.

The rendition of the "Volga Boatman's Song," by the quartet was the most beautiful Russian song given, and gave an example of the power of the singers, as well as their softer tones.

Although the singers have taken out their first naturalization papers, and appear to be very proud of the fact, their English is still odd and there was a piquancy about their rendition of "My Old Kentucky Home," due to their accent and pronunciation. In fact, the audience thought one or two of the songs given in English were being sung in Russian.

Jacob Henneman, the accompanist, played four solos, and was heartily encored in each instance, and although it was evident he was not a Russian, his accompaniments were in fullest sympathy with the singers.

The men appeared in two different Russian costumes and in evening dress. Their first appearance, when they sang church music, was in the garb of cathedral singers, long, hot-looking robes, and the audience breathed a sigh of sympathetic relief when the robes were removed and ordinary clothing was revealed. During the latter half of the program, the men wore Russian blouses of satin.

As a whole the concert was a very enjoyable one, and will prove one of the most easily remembered programs of chautauqua week.

The prelude yesterday afternoon was given by the Russian Cathedral quartet, which sang several quartet numbers. Their program included two Russian church songs, "Raise the Name of the Lord" and "Blessed is the Man," a Russian folg song, a Russian peasant "Laughing Song" and "Believe Me if all Those Endearing Young Charms."

Mrs. Annie Dickie Olesen, a pioneer in politics for women, said that the great hope is that the ballot in the hands of women will make the governments of the earth better. Her address on "Women in Politics" was a powerful one and her voice was clear so that her audience heard every word. She was one of the best women speakers ever heard in Maryville.

"If I was writing the poiltical platform of any political party the first plank in that platform would be for honesty of administration, one hundred per cent honesty in every department of government."

She refuted the statement that women should not take a place in politics and that "woman's place is in the home," by saying, "Woman's place is where she can do some good

Son of Millionaire Missing Since August 3

All Chicago Joins in Search for Lester Lapidus, Son of Politician and Manufacturer

Chicago, Aug. 11—Chicago became a focul point today in the wide-flung search for Lester Lapidus, 17-year-old son of Harry Lapidus, millionaire politician and president of the Omaha Mixture and Supply Co., who disappeared August 3 from the citizens military training camp at Fort Dodge, Ia.

Every newspaper in the city was on the lookout for the boy on the father's assertion that journalism was an obsession with the boy who was believed en route to Chicago when he appeared momentarily at Hillsburg, Ill., and posted a letter Friday .

CORN CONDITION 64 PER CENT NORMAL

WHEAT MAKES AVERAGE OF 18 BUSHELS PER ACRE.

OATS YIELD IS GOOD

Prospects Throughout State Indicate About 70 Per Cent Corn Crop—Pastures In Good Shape.

The farmers of Nodaway County at August-time put the condition of corn at 64 per cent of normal. Threshing returns are scattering with wheat making an average of 18 and oats 29 bushels. Condition of other leading crops are potatoes 96 per cent, apples 62 per cent, tame hay 80 per cent, secon dclover crop 78 per cent, pastures 97 per cent, and farm gardens 92 per cent.

Missouri corn at 70 per cent of normal indicates a yield of 25.2 bushels per acre or 170,327,000 bushels on 6,759,000 acres, according to E. A. Logan of the U. S. Bureau of Agricultural Economics and Jewell Mayes of the Missouri State Board of Agriculture. The August 1924 corn prospects are in contrast with 196,860,000 bushels at 30 bushels per acre on 6,562,000 acres last year.

Missouri corn improved 8 points during July, but is still 7 points under 10-year average and 15 points lower than August, 1923. Poor stands are quite general, and most of the crop is weedy, not well cultivated. The main crop is ten days late, and replanting 20 to 25 days. Southern and southwestern counties have good prospects.

Scattering fields in all sections show fine promise, and the crop in general looks better than was expected from July conditions. Much corn in the Missouri River bottoms, is good, practically all is poor along the smaler streams. Cultivation continued during July and August, as considerable acreage was planted around July 1st.

The outcome of the Missouri corn crop depends upon moisture during August and maturing temperatures until October 10th. Evidently 3 per cent or less of the planted acreage has been abandoned. Chinch bugs are bad in sections of Audrain, Henry, Holt, Marion, Ray and other local points.

Wheat yields average 12.8 bushels per acre on 2,069,000 acres totaling 26,483,000 bushels compared to 37,882,000 last year, and 5-year average of 45,106,000 bushels. Threshing has been delayed by frequent rains; quality is good in west and northwest counties, but inferior in east counties; average quality is 86 per cent compared to 10-year average of 87 per cent. A small acreage was lost by overflows near harvest.

Missouri oats at 83 per cent at harvest indicates a yield of 28.1 bushels per acre or 42,200,000 bushels upon 1,518,000 acres. The yield is 3 bushels better per acre than last year, when the crop totaled 34,500,000 bushels upon 1,383,000 acres. Threshing delayed and some damage has occurred; harvest was later than usual.

Hay harvest has dragged through a long season with some damage to timothy and clover. Second or seed crop of clover outlook is good. The Southern Ozarks have an excellent hay crop. Shortage of timothy will be made up largely by soybeans, cowpeas and kaffir. Tame hay at 83 per cent normal indicates a yield of 1.19 tons per acre or 3,978,000 tons compared to 4,038,000 last year. Prairie hay shows good promise.

HERRIOT PROPOSES RUHR EVACUATION

WOULD LEAVE DISTRICT WITHIN 11 MONTHS.

WOULD BE GRADUAL

Except for Settlement of This Problem, Reparations Conference Has Practically Completed Work.

London, Aug. 11—Premier Edward Herriot today proposed to the allied reparations conference that the Franco-Belgian forces evacuate the Ruhr within eleven months after the Dawes plan is put into operation, providing the Germans carry out their obligations under the plan.

Evacuation would be gradual as the Dawes plan becomes effective.

The Germans requested that evacuation be carried out within six months.

Except for settlement of the Ruhr question, the conference has practically completed its work. It now remains only to put committee reports, which have been adopted by the Council of Fourteen into the form of a protocol, and to secure the allied and German signatures.

The Council of Fourteen decided to leave the Ruhr issue to direct negotiations of the French, Belgians and Germans.

Another important forward step was taken when the French and Germans agreed to grant amnesty to all prisoners arrested in the Ruhr and Rhineland except those in which violent death occurred.

Severe Artic Weather Balks Globe Flyers

Unable oTPenetrate Heavy Fog Off Coast of Greenland—Are Determined to Complete Flight.

Aboard the U. S. Ship Richmond, off Reykjavik, Iceland, by wireless, Aug. 11.—Every effort of the American around-the-world flyers to try to find means to continue their globe-encircling flight, was balked today by severe arctic weather.

The cruiser Raleigh, ordered to investigate ice conditions near Greenland was so cloaked in fog that its skipper was afraid to attempt moving in it. The weather near Greenland prevented any attempts at exploration.

Reports that the world flight is to be abandoned are "absolutely false," according to a cablegram to the chief of the air service today from Lieut. Lowell Smith, commander of the expedition.

The flyers are going to bring their ships into the United States, Smith declared, even if they have to put on wheels and fly straight across Labrador, a distance of 1,500 miles.

Washington, Aug. 11—The Danish government has offered any assistance it can give to enable the American around-the-world flyers to continue to the United States by the way of Greenalnd, according to a dispatch to the state department today from the United States minister at Copenhagen, Denmark.

THE BRITISH RUSSIAN FAILURE.

Collapse of the Anglo-Russian parley proved no surprise in the diplomatic world. It had been expected from the very inception of the deliberations. The first rift in the outlook occurred over two months ago, and since then the conference steadily has been tottering with the only step remaining official designation of the climax.

The collapse, however, means more than the failure of a financial and economic parley. It makes void the recognition of the Soviet government by Britain. Thus Russia, from any viewpoint, is the heaviest loser in the ill-conceived and ill-executed plan which would have brought Great Britain, had it accomplished what it set out to accomplish, on direct terms of intercourse with the Red regime

Had the British parley succeeded it would have been the forerunner, the precursor of a general trend toward recognition. France doubtless would have felt constrained to follow suit. The failure of the conference also is a blow at MacDonald, whose policy of determining a nation's capacity for fair dealing was directly opposed to that of Secretary Hughes. The MacDonald policy consisted of recognizing first and then determining this vital point afterwards—something akin to placing the wagon before the horse.

Moscow, the conference developed, is completely in Communist hands. And so long as it remains so there is no prospect of universal recognition. Had Moscow been wise it would have made liberal concessions. But the Soviet has, apparently, a propensity for breaking off with friends when they are most needed.

INTRIGUING IN LATIN-AMERICA.

Brazil, according to one countryman who is in the United States on a visit, is a land of intrigue. Revolutions spring up suddenly and overnight and take the populace completely by surprise. In Brazil the air is sweet and pure and brilliant flowers adorn Brazilian hills.

The description is replete with splendid phrases which almost make one wish he could pack up belongings and live in Brazil. "A land of intrigue," he says. Intriguing what? Intriguing revolutionists or intriguing flower pots and flower gardens which beckon from the purple distances? Doubtless both.

The description might be carried on ad infinitum. For instance, Honduras might be called an intriguing country. Everybody and everything seems busy with intrigues. General Fonseca is on the march and Cholutec is trembling. Honduran roses are in full bloom. In intriguing Mexico a Britisher was disposed of for motives not robbery. In Ecuador, intriguing Ecuador where palm trees line deep blue lagoons, the country is beset with strikes. All through Latin-America the air fairly bristles with pureness and sweetness and revolution. It is an intriguing district, just as Brazil is an intriguing country.

But despite these allurements, it is unlikely there will be a grand exodus south. Florida most likely will be the southern-most objective of American tourists. Despite the pretty flower beds and palm lined lagoons, America is intriguing enough to warrant staying at home.

In the obscurity of New York City's taxi cab rate war one thing seems certain, namely, that rates in the future will be much cheaper than in the past. Why taxi line owners did not decide upon this course years ago always will remain an inscrutable mystery. Taxi business in any city would double itself almost overnight were rates reasonable, taxi rides not a luxury and the cars brought down to within the reach of all.

The ruling of the New Jersey magistrate that dogs must not bark between 8 p. m., and 9 a. m., is interesting, but how is it going to be enforced?

Sells $55,000 Of Blue Grass Seed From Five Places

(Maitland Herald)

J. Q. Weller shipped out $55,500 worth of bluegrass seed this season. He shipped from Maitland, Skidmore, Barnard, Stanberry and Sheridan.

With the exception of one lot at $1.50, the rest of the seed was bought for $1.75 to $2. Only the very poorest brought less.

He shipped mainly to the Rudy Patrick Seed Co., at Kansas City, Mo., Nebraska Seed Co., at Omaha and Bret & Co., Paris, Ken.

The seed was bought from 72 persons besides the hand strippers. He shipped one car to Bret & Co. for which he paid $6,000. That carload a few years ago would have bought a nice little farm. Many farmers remember when land was $75 per acre and at this rate a car load of bluegrass like that would have bought an 80-acre farm.

One sack weighing 143 pounds brought $21.40.

The seed from the fair grounds brought $417. The Fair Association received $216 from the seed stripped from the grounds.

The best of seed brought as much as $40 an acre.

Coming at this time the bluegrass seed has been a method for the farmers to make money and also have the use of their pastures. There is money in bluegrass seed.

During the season of 1924 there was paid out for bluegrass seed through the Peoples Bank of Maitland by D. Gelvin for WoodfordSpears & Sons of Paris, Ky., the sum of $79,200.

It is very evident that this vast amount of money paid out to the farmers around Maitland and Northwest Missouri suggests an industry of gigantic proportions and especially when viewed in the light of its being just in its infancy in these parts.

It will be remembered that this product goes to Woodford Spears & Sons of Paris, Ky., the greatest bluegrass refiners and buyers in the world, and their name and fame is known all round the world.

The seed bought from the fertile fields of Northwest Missouri and shipped to the above firm is everywhere famous as seed of the highest quality and weight. It is sold in the United States for fields, lawns and golf links especially in the northeastern states, and in Germany for dyes.

Only last year Mr. Gelvin received an inquiry from official Germany wanting a sample of his seed, verifying the fact that Maitland is on the map when it comes to the bluegrass question.

It is worthy of mention that Ed Spears of the firm of Woodford Spears & Sons is a live wire and is always early on the grass field and bidding from 25 to 40 cents higher per bushel than other buyers and thus establishing a price for this territory. They have shown themselves to be gentlemen in every respect and have the confidence of every party with whom they have dealt.

It is noticeable also that the men who are sent here by the firm to receive the seed are men of high type and are thoroughly courteous and dignified and Mr. Constin, who received the seed this year, had all of the qualities of their former men and bore the enviable record of not having a single dissatisfied customer.

It is a pleasure to deal with such a reliable firm and the men representing them.

Manufacturers are complaining that the sale of pins is falling off. After a while the waist line may be cleared of snags, rejoices the Jamestown, Kan., Aptimist.

No Monopoly in Oil

"I am told that the Standard Oil Company has practically all the refineries. Is this true?" a correspondent asks the Oil and Gas Journal.

Reply is made in issue of June 19, as follows: "It certainly is not. In the first place when you mention the Standard Oil Company you are speaking of several companies which, since the dissolution decree United States Supreme Court of 1911, are as separate in their ownership and control as any of the several thousand oil companies which operate in the United States.

"No company bearing the name of 'Standard' including its subsidiary organizations has more than 11 refineries in the United States. There are several of the so-called 'independent' companies which have from 5 to 9 refineries. According to the Oil and Gas Journal's compilation of May 1, there are 574 refineries in the United States of which 382 were operating on that date. Of this number only 39 belong to the several Standard Oil Companies and their subsidiary organizations. Thus you see that approximately only 1 out of 15 refineries belong to the Standard Companies."

The Standard Oil Companies loom much larger in the public mind than is warranted by the percentage of their refineries as compared with all other oil companies.

The Standard Oil Company (Indiana) has but six refineries — Whiting, Indiana; Sugar Creek, Missouri; Wood River, Illinois; Casper, Wyoming; Greybull, Wyoming: and Laramie, Wyoming.

The oil industry of today is of such vast proportions as almost to defy figures. Perhaps that is why it appeals so strongly to the imagination.

As the oil industry is organized today, a monopoly in oil, whether crude or refined, is beyond possibility. The industry is too enormous for dictation by any one company or any group of companies. It is too big and too varied for "understandings". It is too big for anything but the keenest sort of competition, and for the winning and holding of business through service.

The Standard Oil Company (Indiana) is strictly a competitive organization of service. That it is able to compete profitably with other oil companies is due solely to its initiative in invention of new methods and processes, and to its superior organization for the refining and distribution of oil products. In both of these capacities it is rendering an essential service to the thirty million people of the Middle West in such a way as to have gained their respect, confidence and esteem.

2 WOMEN SEEKING OFFICE NOMINATED

MRS. KATE MORROW'S PLURALITY IS 28,300

SEVEN ARE DEFEATED

Three Candidates Unopposed—Nelson and Baker Lead Increasing Steadily

St. Louis, Aug. 11.—While returns trickling in from missing precincts Saturday increased the leads of men candidates for major political office, chief interest in Tuesday's primary turned to the political fortunes of the twelve women seeking office.

The belated returns received today tend to indicate the defeat of seven of the women seeking nomination, the election of two, while three women candidates were unopposed.

Mrs. Kate Morrow of Warrensburg, the Democratic candidate for secretary of state and the first woman seeking a major state office, was the outstanding successful nominee. Returns today had increased her plurality to more than 28,300 over her two men opponents.

Mrs. Wing Has Lost.

The other candidate who apparently was successful also was Miss Sarah "Sallie" Turner of Kansas City, who sought the nomination for state representative on the Democratic ticket in the Fifth district, Jackson county.

Mrs. Edith Garver of Springfield, Socialist candidate for state treasurer; Miss Nellie Warmout of Kansas City, and Mayme H. Ousley of St. James, Phelps county, both Republican aspirants for the lower house of the legislature, were three unopposed for nomination.

Of the defeated candidates, probably the most notable was Mrs. Alice Curtis Moyer-Wing of Greenville, who sought the Republican nomination for congress in the Thirteenth district. The other candidates, who likewise apparently were defeated, were Katherine Famuliner, Republican, of Pleasant Hill, who ran for state senator; Miss Mellicene T. Smith of University City, and Miss Josephine Myers of Kansas City, Democrats; Mrs. Fred S. Freund, St. Louis; Pearl Holt, Braggadocie, Pemiscot county, and Miss Nora Powell of Princeton, Mercer county, Republicans, who sought nomination to the lower branch of the state legislature.

Baker, Nelson Leads Increase.

The returns today also had increased the respective pluralities of Sam A. Baker, Republican, and Arthur W. Nelson, Democrat, for the gubernatorial nomination. Baker's lead over Hiram Lloyd, his nearest opponent, was was more than 45,900 with 3,426 precincts reporting, while Nelson's plurality was in excess of 70,,500 with 3,532 precincts reported.

Of the three congressional races thought to have been in doubt, Scott Wolff, Democratic incumbent of the Thirteenth district, has a lead of more than 1,200 over his opponent with 218 out of 265 precincts reporting; R. E. Bailey, Republican of the Fourteenth, led J. F. Adams by more than 1,200 with 291 precincts reported, and W. O. Atkeson of Butler, had a plurality of 552 votees over Dr. H. W. Insley of Rich Hill, for the Republican nomination in the Sixth district.

In the race for lieutenant governor, Phil A. Bennett of Springfield, had a lead of 55,557 over Leslie Lyons of Kansas City, for the Republican nomination, while C. M. Buford of Ellington, led his nearest opponent by 16,192 in the Democratic race.

Otto and Jones Leads.

For Republican secretary of state, Charles U. Becker, led his nearest opponent by 113,152 votes.

For state treasurer, C. E. Stephens led by 72,774 for the Republican nomination while J. H. Stone of Adrian Democrat, led by 78,864.

For attorney general, R. W. Otto of Washington, had a plurality of 63,889 over his Republican opponent and E O. Jones of Laplata, led the Democrats by 14,399.

For judge of the supreme court, division No. 1, Atwood led by 55,879, while William H. Allen has a lead of 24,609 for judge of the St. Louis court of appeals and John S. Farrington led by 2,963 for judge of the Springfield court of appeals.

Carl Wray and daughter, Miss Mary Wray, of Guilford were in Maryville today.

200 Dairymen to Attend The Milwaukee Show

Will Use Special Train Out of Kansas City, Sept. 26—Exposition Will Last For Three Days.

Kansas City, Aug. 11.—Two hundred Kansas and Missouri dairymen will attend the National Dairy Exposition at Milwaukee September 26, using a special train out of Kansas City, known as the Southwest Dairy Special. Arrangements for the delegation have been made by the Kansas City Chamber of Commerce and the Kansas and Missouri State Agricultural Colleges. Three days, September 27, 28 and 29 will be spent in touring southeast Wisconsin studying methods used on some of the successful dairy farms. The party will reach Milwaukee Monday afternoon, September 29 where it will disband, each person remaining at the Dairy Exposition as long as he wishes.

Better dairying as taught at the National Dairy Exposition and as observed first-hand on the better dairy farms of Wisconsin, is the lesson to be taught on this trip, according to the committee in charge. It is not an effort to "Wisconsinize" Kansas and Missouri where many conditions are entirely different from those in Wisconsin. Herds will be inspected where the influence of the use of a good bull is shown in figures of production and dollars of profit. Results of cow testing association work in the breeding and feeding of a profitable herd will be an object lesson on these farms. Those problems which have been solved by the Wisconsin farmer and which have the same solution in the Southwest will receive greatest attention from the party.

A special rate of fare and one-third round trip has been secured for all points in Kansas and Missouri. Tickets go on sale September 26 and are good for return up to October 6. The Southwest Dairy Special will leave Kansas City over the Chicago, Milwaukee and St. Paul at 7:30 P. M., September 26. The party will detrain the next morning at Beloit and start its motor tour of 400 miles through southeast Wisconsin. Parlor motor coaches each with seating capacity of 22 persons will be used. Saturday night will be spent in Madison and Sunday night in Oconowooc, Wis.

A careful estimate shows that total cost of the trip will probably not exceed $75, including the three day tour and three days at the National Dairy Exposition.

Reservations for the trip should be made at once with the Kansas City Chamber of Commerce, according to Geo. W. Catts, Agricultural Commissioner for the Chamber. Reservations are to be accompanied by check for $17.25, covering $5.25 for lower pullman berth from Kansas City to Beloit, Wis., and $12 for 400 miles motor tour. If upper berth is used the total amount is $16.80.

Only 200 reservations can be accommodated. Already Harry A. Russell, Secretary of the Fort Scott Chamber of Commerce has requested one car of the train, Ira Drymon, County Agent of Bates County, Missouri, has five dairymen ready to go and many other communities are organizing delegations

The committee in charge of arrangements is:

H. Umberger, Director of Agricultural Extension, Kansas State Agricultural College.

A. J. Meyer, Director of Agricultural Extension, College of Agriculture, University of Missouri.

J. B. Fitch, Chairman of Dairy Department, Kansas State Agricultural College.

E. M. Harmon, Dairy Specialist, College of Agriculture, University of Missouri.

Geo. W. Catts, Agricultural Commissioner, the Kansas City Chamber of Commerce.

Stephen Lamar Starts On Vacation In East

RUSSIANS SINGERS IN PLEASING PROGRAM

(Continued from Page One)

for humanity."

The motto and guide that she used in her campaign for senator of Minnesota was the preamble of the Constitution of the United States. She believes that the radio caused the deadlock in Democratic National Convention because the people back home were listening in and would send messages or letters to their representatives. The people back home had more of a hold on this convention than ever before and Mrs. Olesen believes that the influence of radio will make a difference in the meetings of Congress in Washington, D. C., when the representatives and senators know that the folks in their own state are listening to see how they vote.

She said that one of the influences women would have in politics and in holding office would be to decrease the great expenditure of money. "Most women,' she said, "are not used to handling great sums of money and they would be more careful about spending it." She also said that she believed that every city council, school board and every public board should have at least one woman on it.

"Political bosses do not like the women and women do not like the political bosses," she declared. She believes that there will be more of a tendency toward leaders instead of political bosses and that women are more likely to vote according to their own intuition.

They said, years ago, that 'the hand that rocked the cradle ruled the world' but it didn't. If that had been so we would not have had the Great War. The ballot in the hands of women is God's last hope against international war and if the woman is sitting with one hand on the cradle and a ballot in the other hand she is going to use that ballot to protect the child in the cradle."

She recalled how the nations of the world had listened when America spoke regarding the Monroe Doctrine; how they had paid heed regarding the countries in South America and then in China.

"America is going to speak again soon for international peace through the World Court and the League of Nations," Mrs. Olesen predicted in closing.

The play tonight, "Captain Applejack" is said to be the high point in the week's program and there will no doubt be a record breaking crowd in attendance.

Tomorrow afternoon the "kiddies" have their chance on the platform and the Junior Town has been getting ready all week for this big day when they will present a play for the "grownups." This pageant is in charge of Miss Anne Varner Baker and she has the assistance of several other artists.

The Baker company will give the prelude for the night's program. Miss Baker is a versatile entertainer and does such things as clay modeling, character impersonations and costumed songs. Miss Baker is ably assisted by Miss Mabel Sperry, a capable pianist and soloist on the zxlophone.

The lecture for the evening, "The Modern Tale of Two Cities" will be given by Charles H. Plattenberg, who is a good story teller and his talks are both humorous and true.

News From Over The County

Ravenwood Gazette

Mark Modglin and Miss Vivian Hensley left Sunday on No. 6 for Sauk Rapids, Minn., where they will join their parents, Mr. and Mrs. J. E. Modglin, who have purchased a restaurant and ice cream parlor at that place.

Mrs. Samuel Gooden of Athens, Texas, arrived here Monday afternoon for a visit with her son, E. C. Gooden and family.

Mr. and Mrs. Elmer Newcomer returned Tuesday from a motor trip of ten days to Yellowstone Park.

Miss Gertrude Conn left Wednesday evening of last week for Duluth, Minn., where she will join a party of friends, and all will proceed to Canada on a pleasure trip. On her return Miss Conn will visit her grandfather, Warren Irvin, and other relatives at Hasty, Minn.

Clearmont News

Will Linebaugh and wife, Edgar Pence and wife, John Wolfe and wife and Frank Rhodes and wife all returned home Sunday evening from their fishing trip up in Minnesota. They say it was awful cold up there and that they could wear their wraps most all the time. Strange as it may appear they have but little to say about their fishing exploits. They saw Rev. Ingram and family and say they are nicely situated and enjoy their new home.

Mrs. D. S. Clayton arrived here Tuesday night from Los Angeles, Cal., where she has been for some months.

Herbert Knobel was taken very sick one night last week. A physician was called, pronounced it appendicitis in the worst form and took him to a hospital at St. Joseph that night, by car, and he was operated on at once. At last reports he was getting along fine.

Later—he arrived home Tuesday night and is doing nicely.

Barnard Bulletin

Logan McGrew, son of Mr. and Mrs. Chas. McGrew of near Barnard, returned Saturday from Denver, Colorado, for a few days vacation. He returned Wednesday of this week and will take up the management of his uncle's theatre while his uncle is away on a vacation in California. Logan is a former student of the Barnard High School and graduated from the Graham High School in the class of 1924. He left for Denver, Colorado, soon after graduation and entered a school of law which he has attended the past season. He will re-enter the school the first of September for a nine month's term.

The merry-go-round at Barnard's The merry-go-round at aBranrd's first picnic, as we stated last week, was home-made, and operated by Henry Stalling and Jas. Rhoades. The proprietors cleared $55.00 from this first venture. The following week they took the device to Bolckow's celebration, ran it there—and lost $55.00. That ended the game.

Guilford Times

Martin Pederson and daughter, Selma, left Wednesday in company with his daughter-in-law Mrs. Pete Pederson, for Rochetser, Minnesota to consult the Mayo doctors regarding Mrs. Pederson's health. She has been poorly all summer and it is with the hope that these specialists may discover the ailment and effect a cure, that she is going. Martin thinks that while there, he also may consult them in behalf of his health.

Miss LaVeta McClanahan left for Chicago, Wednesday, where she will take a short special course in Dramatic Arts. She will have charge of the Dramatic Arts course at the Maryville S. T. C. this coming term.

Last Friday while hauling grain, Chas. Jackson was thrown from the spring-seat on the wagon onto the ground. The fall bruised his face, side and hip, which will lay him up in bed for several days.

John Whiteford of Oklahoma City is here visiting his brother Hugh and sister, Blanche Whiteford and looking after his farm interests.

R. L. Carter and John O. Nelson had the misfortune to lose a 12 or 14-ton stack of hay during the electric storm Tuesday afternoon. It was new hay and had just been put up.

Elmo Register

Al Woodard, a well known citizen of this locality, was thrown from a load of hay and badly hurt last week. It seems the wagon wheel dropped into a rut or hollow and tilted the load throwing Mr. Woodard off. It was necessary to take several stitches to sew up the wounds which were about the head and face. He is improving, and was able to be in town Tuesday.

A fire Monday evening at Ray Atherton's, who lives on the McIntyre farm in High Prairie, caused considerable damage.

Parnell Review

The Parnell fourth Free Chautauqua which closed Tuesday night, was one of the best programs ever held here, and was attended by large crowds. The committee for the 1925 chautauqua was appointed and is composed of the following: John O'Day, W. F. Kennedy, Chas. Evans, Mrs. W. C. Nelson and Miss Getha Conrad.

Mr. and Mrs. J. H. Pierpoint, Mr. and Mrs. Lloyd Pierpoint and son, Howard of Sistersville, West Virginia, motored to Parnell and are visiting relatives in this vicinity. Mr. Pierpoint is a brother of Mrs. E. J. Woodburn.

Carl T. Batt had the misfortune Tuesday morning to sprain his wrist while cranking his Ford.

Mrs. John Hood and Mrs. Chas. Florea went to Rochester Tuesday, to be with Mr. Hood who will undergo an operation at Mayo Bros. Hospital.

Mrs. B. A. Jones and daughter, Pauline, started last week on a motor trip to Colorado, they stopped at Topeka then on to Wichita, Kansas, where they are visiting Mrs. C. V. Roof and family.

WISE CRACKS

There was a time in Maryville when the authorities were worried over the recklessness of the bicycle riders in the summer and the drivers of sleighs in winter.

1910: "May I go out mamma?"

1924: "Yeh, but be in before daylight, old Thing."

And in passing; the trite old defeated candidate joke is in season again, and will remain until about time the more trite Thanksgiving crax come forth.

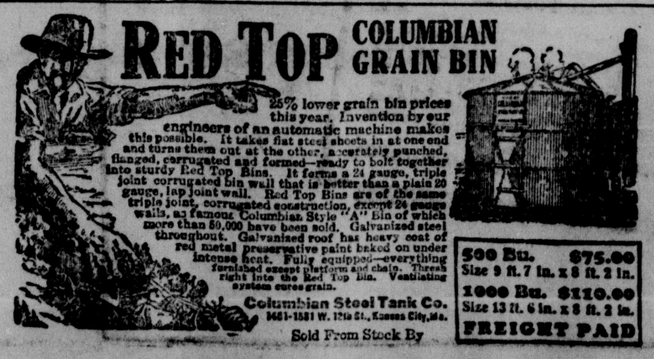
RED TOP COLUMBIAN GRAIN BIN



25% lower grain bin prices this year. Invention by our engineers of an automatic machine makes this possible. It takes flat steel sheets in at one end and turns them out at the other, accurately punched, flanged, corrugated and formed—ready to bolt together into sturdy Red Top Bins. It forms a 24 gauge, triple joint corrugated bin wall that is better than a plain 20 gauge, lap joint wall. Red Top Bins are of the same triple joint, corrugated construction, except 26 gauge walls, as famous Columbian Style "A" Bin of which more than 50,000 have been sold. Galvanized steel throughout. Galvanized roof has heavy coat of red metal preservative paint baked on under intense heat. Fully equipped—everything furnished except platform and chain. Thresh right into the Red Top Bin. Rupture Expert Here

F. H. Seeley, of Chicago and Philadelphia, the noted truss expert, will personally be at the Linderman Hotel, and will remain in Clarinda Wednesday only, August 13. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast advancement over all former methods —exemplifying instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or Incissional ruptures (following operations) specially solicited. Pastures are 94 per cent normal against the 10-year average of 72 per cent and are usually good in all sections. Vegetables made favorable growth during July, and potatoes at 88 per cent of normal indicate 87 bushels per acre or 1,178,000 bushels against 9,300,000 last year.

Summer fruit prospects are fair, apples 56 per cent of normal, indicating a smaller commercial crop than last year. Some pears, plums and apples were hurt by winds and hail. Many farm apples are wormy. Howell County has a good peach crop. Peaches are very scarce north of Springfield.

General Missouri farm situation has improved, prices more favorable; livestock are in good condition, soil in fine shape for fall plowing; labor conditions steady; cotton is growing well with too much rain in some counties, but no serious insect damage excepting that red spiders are appearing.

Hookers To Ozarks.

Mr. and Mrs. Hal Hooker and daughter, Miss Halcyon Hooker, accompanied by Miss Edna Dietz, left yesterday morning on a motor trip through the Ozarks. They expect to return home next week by way of Sedalia where they will attend the Missouri State Fair.

Telephone Operators on Vacation.

Miss Fern McKee resumed work in the office of the People's Telephone Union today after a week's vacation. She visited her mother, Mrs. W. R. McKee of Pickering, and other relatives. Miss Dale Skinner, chief operator, will leave tomorrow for a few days' visit in Stanberry.

226 Entries In Dog Show At State Fair

Sedalia, Mo., Aug. 11.—The second annual Missouri State Fair Kennel Show closed August 7, with 226 entries. Nineteen different breeds of dogs will be benched at the show, and 130 individuals will compete for the $3,500 in premium money offered in the various classes.

The entries for the Kennel Show show a decided increase over the entries of last year, the first attempt by the Missouri State Fair to hold a dog show in conjunction with the annual exposition. Managers of the Kennel Show are elated over the prospects, and do not hesitate in saying that the best show seen during the year in Missouri may be seen from August 21 to 23, inclusive, the three days on which the dogs will be benched for the State Fair visitors.

Last year the dogs were benched four days, alternating among the different classes, but this year all dogs at the show will be on the bench the three days under which judging is held.

James Cole, of Kansas City, will judge the different breeds under the following program: Thursday, August 21, from 11 to 12 in the forenoon, Airdales and Beagles; in the afternoon from 2 to 5, Bloodhounds, Boston Terriers, and Bull Dogs. Friday, August 22, in the forenoon from 11 to 12, Collies, Fox Hounds, Smooth Fox Terriers, and Wire-haired Fox Terriers; in the afternoon from 2 to 5, Great Danes, Pekingese, Pointers and English Setters. Saturday, August 23, in the forenoon from 11 to 12, Irish Setters and Shepard dogs; in the afternoon from 2 to 5, Cocker Spaniels, Scottish Terriers, Russian Wolf Hounds, and miscellaneous classes.

The second annual Kennel Show will eb held in the Missouri State Fair Kennel Club Building, centrally located on the Fair Grounds, and with the most modern means of sanitation and ventilation. The dogs will not be brought to the Fair Grounds for entry until Thursday of Fair Week.

Mrs. Flossie Miller will leave this evening to visit Mr. and Mrs. Sam Miller and family and Mrs. James Davis of Bolckow and Mr. and Mrs. W. H. Fannon and family of Barnard for two weeks.

Miss Verna Goff returned yesterday evening from a week's vacation visit with Mr. and Mrs. W. H. Fannon and family in Barnard.

Platte County Returns Are Now All Reported

McDaniel Leads Lockwood in Race for Congressman From This District by 597 Votes

The nomination of John McDaniel of Savannah for representative in Congress on the Democratic ticket, was assured Saturday night when Platte County reported complete returns showing McDaniel 2,050 and Bart M. Lockwood, his opponent, 888.

With only three precincts in Atchison County unheard from, McDaniel now has a lead of 597 votes, too large a count to be affected by the three Atchison County precincts.

The total vote, with three precincts out, now stands:

ELMO CONSTABLE CAUGHT ROBBERS

THIEVES ENTER GATES MERCANTILE STORE YESTERDAY

NEIGHBOR SAW LIGHT

Telephones to Authorities—Two Men Are Caught as They Attempt to "Bum Train to Omaha.

At 2 o'clock Sunday morning two thieves broke into the rear window of the Gates General Mercantile Store at Elmo and for two hours looted the shelves of the dry-goods department, taking only the best articles found on the counters. One hour later Constable O. V. Knuckolls arrested the thieves as they were attempting to board the 5:30 o'clock train. He obtained a confession of the crime from one of the men. The other man denied all knowledge of the robbery.

The men were brought to Maryville yesterday morning by the Elmo men and were placed in the county jail. They gave their names as George Clark and Frank Randall. Clark is a tall, slim man, 40 years of age. He claims that he lives in California and that this is his first criminal offense. Randall says he is 42 years old and lives in Illinois. He is a short heavy set man. Randall denies that he has ever been guilty of a criminal offense.

Both men say that they are laborers and were on their way to Omaha. They also claim that they have been working in the harvest fields.

Clark claims that he did the robbery unassisted and that he saw Randall for the first time when he went to the railroad station to board the train. The authorities, however, claim that both men are connected with the robbery.

When first arrested both the men denied knowledge of the crime but after further questioning admitted their guilt. The two men then led I. T. Gates, the proprietor of the store, Constable Knuckolls, Ross Joy and Wm. Reece to a place half mile north of town where they had hid the loot along the railroad tracks.

The stolen goods were stored in two suit cases which were also stolen. Mr. Gates estimated the value of the goods stolen at $150. There were fifteen pair of shoes, a dozen silk shirts, ten pairs of trousers and some overalls. The loot was the choice articles of the store as the robbers spent two hours in picking out the best articles.

At 3 o'clock Mrs. Robert Kinman, who lives north of the Gates store, noticed a light flash on and off. There have been several robberies committed in Elmo of late and so she immediately telephoned the central operator and told of the light. Ira Gates' phone is on the same line as the store phone and so the central operator notified Ross Joy who told Mr. Gates and Constable Knuckolls.

By the time the men arrived at the Gates store the thieves had made their exit by way of the rear window. A line- call was made to all Elmo people and the surrounding towns.

Mr. Joy and Mr. Knuckolls went down to the railroad station and discovered two men hiding behind the stockyard fence. The men were ordered to throw up their hands. The two at first denied all knowledge of the crime and claimed that they were beating their way to Omaha and were waiting for the train. They did not give any reason for being in Elmo at the time. After being questioned for some time one of the men confessed to robbing the Gates store.

One man was held by the Blanchard police for the robbery. He was found riding the blinds on the 5:30 Wabash which was going north. This man was afterward released.

Sheriff Roach said this morning that charges of robbery and larceny would be filed against the men today.

Corwins To Colorado.

Mr. and Mrs. C. C. Corwin and daughter, Miss Mae Corwin, left at noon today on a motor trip to Loveland, Colo., where they will spend several weeks with Mr. and Mrs. J. W. Jones. They will also visit at other points in Colorado.

Mr. and Mrs. Charles Short and daughter of Burlington Junction were Maryville visitors today .

John Murrin spent yesterday at the home of his son, Dr. John Owen Murrin, and family, in Atchison, Kan.

Is Named Delegate To National Meeting

Ova B. Clauson of Conception Junction Selected by State Convention of Rural Carriers

Ova B. Clauson of Conception Junction was elected as one of the delegates to the national convention of rural letter carriers to be held at St. Paul next month, at the closing session of the state association at Kirksville Saturday.

H. J. Lyons of Warrensburg was elected president of the state association. The meeting next year will be held in Independence.

Several rural carriers from Nodaway County attended the state meeting at Kirksville.

SHORT AND NARROW SKIRTS THIS FALL

SAYS HARVEY HAINES, BACK FROM NEW YORK.

BUSINESS IS BETTER

Local Merchant Says That The Most Beautiful Girls In The World Are In Maryville.

Milady's skirts this year will be short and narrow, according to a statement made this morning by Harvey L. Haines, who returned Saturday from a two week's buying trip in New York. Fashion bows to comfort and common sense and the long skirt will be a thing more rare than a day in June. Nearly all garments will be lavishly trimmed in fur, and many new materials, entirely different from other seasons, will be found in cloaks, suits, and dresses.

Women's blouses will have the all-over effect and will be forty-five inches in length. Many handsome three-piece suits will also be on the market.

Mr. Haines said that he has never bought such an extensive line of ready-to-wear garments. His purchases this year were large because clothes are so different that last year's garments will look quite out of date.

New York manufacturers have had a dull time of it for the past eighteen months, Mr. Haines said. However, everybody looks forward to a prosperous fall. Merchants are buying heavier than for several seasons. Mr. Haines attributes this to the advanced prices of farm products.

"Everything is looking good," Mr. Haines said. "Business is entirely different from last spring. There is a different feeling. Everybody predicts that the world will enjoy the greatest prosperity when the Dawes plan is accepted and the concensus of opinion is that it will be accepted within the next ten days."

When asked if he noticed any changes in men's styles, Mr. Haines said, "I didn't even look at a man while I was gone. I sell women's clothes."

And when asked if he saw many beautiful girls he said, "You young bucks don't realize what beautiful women are. Why, you should go to New York and then you would find that the most beautiful girls in the world are in Maryville

"A fellow that I knew asked me just what I thought of Maryville, and I told him that I wouldn't trade one-fourth of Maryville for all of Manhattan Island. No siree."

Flaring Up Oil Stove Causes Alarm

An oil stove flaring up caused the fire department to make a run to the home of Judge W. C. Ellison, 311 South Buchanan, about 8 o'clock Saturday night. However, the stove was taken out in the yard and no damage was done.

Prof. and Mrs. W. M. Oakerson and children, Frances Catherine and Junior, motored to Maryville Saturday afternoon from Jefferson City to be guests of Mrs. Oakerson's sisters, Mrs. Florence Westfall, and family, and Miss Dena Hartman. They will also visit Mr. Oakerson's parents and other relatives in Skidmore.

Class At Elmo.

Miss Margaret Davison, county health nurse, went to Elmo today where she conducted a class in home hygiene and care of the sick, at 2 o'clock this afternoon in the Elmo high school.

RADIO SPEECH TO BE RECEIVED HERE

BROADCASTING TO START AT 6:40 O'CLOCK

NOMINEE TAKES CHARGE

Calls Meeting of Democratic National Committee to Outline Plans of Battle—to Stress Three Issues

* * * * * * * * * *

The Democrat-Forum, cooperating with Harry C. Todd of the Hanamo Telephone Co., will receive the acceptance address of John W. Davis, Democratic presidential candidate, by radio tonight.

The broadcasting from WDAF, the Kansas City Star, will begin at 6:40 o'clock, Maryville time.

A band number will open the notification program at 7 o'clock Clem Shaver, chairman of the Democratic National Committee, then will call the meeting to order for the saying of the invocation. This will be followed by Thomas J. Walsh's official notification address and Mr. Davis' speech of aceptance.

Two musical numbers and the benediction will close the program, which will last for about two hours, ending at 9 o'clock Maryville time.

The Democrat-Forum will have a number of chairs in front of the office for the comfort of those listening to the address.

John W. Davis will sound the keynote of his presidential campaign tonight, and all are invited to come to the Democrat-Forum office and hear him.

* * * * * * * * * *

Clarksburg, W. Va., Aug. 11.—Assuming direct command of the Democratic ship of state, John W. Davis today formally launched his drive for the White House.

The Democratic nominee took up the party leadership by calling the national committee into session for battle plans, the election of campaign officers, and to hear an appeal for party unity.

The candidate called the meeting and announced he would personally address it.

This action came as a prelude to the formal notification ceremonies tonight.

In his speech of acceptance, the nominee has announced he will stress three great issues in the campaign These are honesty in government, federal economy and religious freedom.

The first undoubtedly will be the keynote of the Davis campaign, and he will strongly advocate reduction in governmental expenditures, further cuts in federal taxes, and more general economy in all government departments.

The religious freedom issue, while still a bone of contention among some Democratic chiefs, has been settled as far as Davis is concerned. His recent pronouncement that he was not, never has been and never will be a member of the Ku Klux Klan has definitely placed him against the Klan.

Elaborate Plans Made For The Clarinda Fair

Educational and Entertainment Features not Neglected in Event Which Will Take Place Next Week

The factors of education and entertainment have been taken into consideration by the committee in charge of the Clarinda fair which will be held in that city August 18 to 22. Money has not been spared and plans for the best fair in the history of the event at Clarinda are under way. Prizes aggregating several thousand dollars have been offered for the various contests of the fair and a large array of free attractions has been arranged.

Clarinda merchants will exhibit their wares at the Exposition building which has been erected for the fair.

Visiting Maryville Relatives.

Prince of Wales To Be Coolidge's Guest

Washington, Aug. 11—The Prince of Wales who is coming to the United States to attend the international polo matches at New York, will be the guest of President Coolidge at the White House for a few hours during a brief visit to Washington, it was learned here today.

Officers Find Mash Set On Cogdill Farm

Raid Saturday Afternoon Yields Whisky and Mash—Trial Will Be Held Saturday

A five-gallon whisky container with a small quantity of whisky, a ten-gallon mash tub and a one-gallon whisky jug was the loot following a raid on the Elmer Cogdill farm, 1½ miles west of Conception Junction, Saturday afternoon by Steve A. Roach, sheriff, Leo Atherton and Gabe Purcell, deputies.

The officers went to the Cogdill farm about 2 o'clock Saturday afternoon. On seeing the officers approaching the house, the occupants turned over the tub of mash and prepared for a hurried getaway. However, they were intercepted by the officers and Cogdill was brought to Maryville and placed in jail. Yesterday morning, the officers returned to the farm and brought back Mrs. Cogdill, who was placed under arrest. The two were charged with manufacture and possession of intoxicating liquor and were released on bonds of $300 each. They will be arraigned in the circuit court Saturday.

McNamee Commends Attitude Taken Here

Man Who Broadcast the Convention Praises Work Done By Democrat-Forum and Hanamo Company.

H. C. Todd, of the Hanamo Telephone Co., received the following letter today from Graham McNamee, the man who broadcast the Democratic National Convention from New York City. Mr. McNamee speaks highly of the attitude taken by the Democrat-Forum and by Mr. Todd in furnishing the news here in Maryville.

The letter follows:

Dear Mr. Todd:—Your letter of the 16th was not received until yesterday as I went on a vacation immediately following the Democratic National Convention. The letter, pictures, and newspaper clippings certainly show the interest felt in your neighborhood, at least in the proceedings of the convention. I was mighty glad to get them and, I assure you, will use them, particularly the pictures, to the best advantage.

Some of the larger cities might well have followed your example in providing comfort for the radio listeners not fortunate enough to have sets of their own.

If by any chance you get to New York we will be glad to welcome you at Station WEAF.

Very sincerely yours,

(Signed) Graham McNamee.

Conduct Classes In Millinery At Bureau

Miss Lois Martin, Extension Expert, Gives Advanced Class for Club Representatives

Eight women, representatives of five community clubs in the county are attending a millinery school today and tomorrow at the County Farm Bureau office. These women, all of whom have had previous training in schools of this kind, are being given a review of the courses by Miss Lois Martin, expert from the extension service of the University of Missouri.

Last year at about this time Miss Martin conducted a four-day school at which time the fundamentals of millinery were taught. This year the women are receiving advanced instruction in trimming and attractive shapes.

The classes are held daily from 10 to 12 o'clock in the morning and from 1 to 4 o'clock in the afternoon.

The women who are attending the school and the clubs they represent are—Whitecloud, Mrs. Charles Rice and Mrs. Mary Bracken; Myrtle Tree, Mrs. Thomas O'Day; Rockford, Mrs. Lester Reaksecker and Mrs. Ernest Bainum; Lasher, Miss Ella O'Grady and Mrs. William Job, Sr.; and Herron, Mrs. W. O. Griffey.

To Des Moines, Ia.

Mrs. Frank Cummins and little son, Billy, went to Des Moines, Ia., today to visit Mrs. Cummin's parents, Mr. and Mrs. Joe Muelhaupt, Sr., and other relatives, for several weeks.

RUSSIAN SINGERS IN PLEASING PROGRAM

GIVE PRELUDE TO AFTERNOON LECTURE

HONESTY IMPEARTIVE

Government Departments Must Be Kept Clean, Asserts Mrs. Olesen in "Women in Politics"

Hundreds of Maryville people got their first taste of real Russian music at the chautauqua yesterday when the Russian Cathedral quartet appeared in the musical prelude for the afternoon lecture and gave the entire program last night and those who hold the idea that music is a sort of universal Esperanto, which all may understand, despite the difference in tongues, were undeceived.

This made the concert educational, as well as entertaining, for it gave to many who otherwise would not gain it, the knowledge of Tartar influence upon Eastern Europe. The Russian church music sung during the early part of the program was strange to American ears, and seemed to savor of Chinese, but as the program progressed and more familiar music was reached, the musicianship of the singers was better appreciated.

As the advance notices indicated, the striking feature of the concert was the marvelous blending of the four voices, which seemed at times to be one big voice and again reached a pipe organ quality. In solo work, two of the singers stood out above the others in popular favor, the first tenor and the bass. Owing to errors in the printed program, it was hard last night to tell who was singing, but there was no doubt that the shorter tenor, who sang "Somewhere a Voice is Calling," as an encore, and the big bass—who was erroneously billed for a tenor solo—were the favorites last night.

The rendition of the "Volga Boatman's Song," by the quartet was the most beautiful Russian song given, and gave an example of the power of the singers, as well as their softer tones.

Although the singers have taken out their first naturalization papers, and appear to be very proud of the fact, their English is still odd and there was a piquancy about their rendition of "My Old Kentucky Home," due to their accent and pronunciation. In fact, the audience thought one or two of the songs given in English were being sung in Russian.

Jacob Henneman, the accompanist, played four solos, and was heartily encored in each instance, and although it was evident he was not a Russian, his accompaniments were in fullest sympathy with the singers.

The men appeared in two different Russian costumes and in evening dress. Their first appearance, when they sang church music, was in the garb of cathedral singers, long, hot-looking robes, and the audience breathed a sigh of sympathetic relief when the robes were removed and ordinary clothing was revealed. During the latter half of the program, the men wore Russian blouses of satin.

As a whole the concert was a very enjoyable one, and will prove one of the most easily remembered programs of chautauqua week.

The prelude yesterday afternoon was given by the Russian Cathedral quartet, which sang several quartet numbers. Their program included two Russian church songs, "Raise the Name of the Lord' and "Blessed is the Man," a Russian folg song, a Russian peasant "Laughing Song" and "Believe Me if all Those Endearing Young Charms."

Mrs. Annie Dickie Olesen, a pioneer in politics for women, said that the great hope is that the ballot in the hands of women will make the governments of the earth better. Her address on "Women in Politics" was a powerful one and her voice was clear so that her audience heard every word. She was one of the best women speakers ever heard in Maryville.

"If I was writing the poiltical platform of any political party the first plank in that platform would be for honesty of administration, one hundred per cent honesty in every department of government."

She refuted the statement that women should not take a place in politics and that "woman's place is in the home," by saying, "Woman's place is where she can do some good

Son of Millionaire Missing Since August 3

All Chicago Joins in Search for Lester Lapidus, Son of Politician and Manufacturer

Chicago, Aug. 11—Chicago became a focul point today in the wide-flung search for Lester Lapidus, 17-year-old son of Harry Lapidus, millionaire politician and president of the Omaha Mixture and Supply Co., who disappeared August 3 from the citizens military training camp at Fort Dodge, Ia.

Every newspaper in the city was on the lookout for the boy on the father's assertion that journalism was an obsession with the boy who was believed en route to Chicago when he appeared momentarily at Hillsburg, Ill., and posted a letter Friday .

CORN CONDITION 64 PER CENT NORMAL

WHEAT MAKES AVERAGE OF 18 BUSHELS PER ACRE.

OATS YIELD IS GOOD

Prospects Throughout State Indicate About 70 Per Cent Corn Crop—Pastures In Good Shape.

The farmers of Nodaway County at August-time put the condition of corn at 64 per cent of normal. Threshing returns are scattering with wheat making an average of 18 and oats 29 bushels. Condition of other leading crops are potatoes 96 per cent, apples 62 per cent, tame hay 80 per cent, secon dclover crop 78 per cent, pastures 97 per cent, and farm gardens 92 per cent.

Missouri corn at 70 per cent of normal indicates a yield of 25.2 bushels per acre or 170,327,000 bushels on 6,759,000 acres, according to E. A. Logan of the U. S. Bureau of Agricultural Economics and Jewell Mayes of the Missouri State Board of Agriculture. The August 1924 corn prospects are in contrast with 196,860,000 bushels at 30 bushels per acre on 6,562,000 acres last year.

Missouri corn improved 8 points during July, but is still 7 points under 10-year average and 15 points lower than August, 1923. Poor stands are quite general, and most of the crop is weedy, not well cultivated. The main crop is ten days late, and replanting 20 to 25 days. Southern and southwestern counties have good prospects.

Scattering fields in all sections show fine promise, and the crop in general looks better than was expected from July conditions. Much corn in the Missouri River bottoms, is good, practically all is poor along the smaler streams. Cultivation continued during July and August, as considerable acreage was planted around July 1st.

The outcome of the Missouri corn crop depends upon moisture during August and maturing temperatures until October 10th. Evidently 3 per cent or less of the planted acreage has been abandoned. Chinch bugs are bad in sections of Audrain, Henry, Holt, Marion, Ray and other local points.

Wheat yields average 12.8 bushels per acre on 2,069,000 acres totaling 26,483,000 bushels compared to 37,882,000 last year, and 5-year average of 45,106,000 bushels. Threshing has been delayed by frequent rains; quality is good in west and northwest counties, but inferior in east counties; average quality is 86 per cent compared to 10-year average of 87 per cent. A small acreage was lost by overflows near harvest.

Missouri oats at 83 per cent at harvest indicates a yield of 28.1 bushels per acre or 42,200,000 bushels upon 1,518,000 acres. The yield is 3 bushels better per acre than last year, when the crop totaled 34,500,000 bushels upon 1,383,000 acres. Threshing delayed and some damage has occurred; harvest was later than usual.

Hay harvest has dragged through a long season with some damage to timothy and clover. Second or seed crop of clover outlook is good. The Southern Ozarks have an excellent hay crop. Shortage of timothy will be made up largely by soybeans, cowpeas and kaffir. Tame hay at 83 per cent normal indicates a yield of 1.19 tons per acre or 3,978,000 tons compared to 4,038,000 last year. Prairie hay shows good promise.

HERRIOT PROPOSES RUHR EVACUATION

WOULD LEAVE DISTRICT WITHIN 11 MONTHS.

WOULD BE GRADUAL

Except for Settlement of This Problem, Reparations Conference Has Practically Completed Work.

London, Aug. 11—Premier Edward Herriot today proposed to the allied reparations conference that the Franco-Belgian forces evacuate the Ruhr within eleven months after the Dawes plan is put into operation, providing the Germans carry out their obligations under the plan.

Evacuation would be gradual as the Dawes plan becomes effective.

The Germans requested that evacuation be carried out within six months.

Except for settlement of the Ruhr question, the conference has practically completed its work. It now remains only to put committee reports, which have been adopted by the Council of Fourteen into the form of a protocol, and to secure the allied and German signatures.

The Council of Fourteen decided to leave the Ruhr issue to direct negotiations of the French, Belgians and Germans.

Another important forward step was taken when the French and Germans agreed to grant amnesty to all prisoners arrested in the Ruhr and Rhineland except those in which violent death occurred.

Severe Artic Weather Balks Globe Flyers

Unable oTPenetrate Heavy Fog Off Coast of Greenland—Are Determined to Complete Flight.

Aboard the U. S. Ship Richmond, off Reykjavik, Iceland, by wireless, Aug. 11.—Every effort of the American around-the-world flyers to try to find means to continue their globe-encircling flight, was balked today by severe arctic weather.

The cruiser Raleigh, ordered to investigate ice conditions near Greenland was so cloaked in fog that its skipper was afraid to attempt moving in it. The weather near Greenland prevented any attempts at exploration.

Reports that the world flight is to be abandoned are "absolutely false," according to a cablegram to the chief of the air service today from Lieut. Lowell Smith, commander of the expedition.

The flyers are going to bring their ships into the United States, Smith declared, even if they have to put on wheels and fly straight across Labrador, a distance of 1,500 miles.

Washington, Aug. 11—The Danish government has offered any assistance it can give to enable the American around-the-world flyers to continue to the United States by the way of Greenalnd, according to a dispatch to the state department today from the United States minister at Copenhagen, Denmark.

THE BRITISH RUSSIAN FAILURE.

Collapse of the Anglo-Russian parley proved no surprise in the diplomatic world. It had been expected from the very inception of the deliberations. The first rift in the outlook occurred over two months ago, and since then the conference steadily has been tottering with the only step remaining official designation of the climax.

The collapse, however, means more than the failure of a financial and economic parley. It makes void the recognition of the Soviet government by Britain. Thus Russia, from any viewpoint, is the heaviest loser in the ill-conceived and ill-executed plan which would have brought Great Britain, had it accomplished what it set out to accomplish, on direct terms of intercourse with the Red regime

Had the British parley succeeded it would have been the forerunner, the precursor of a general trend toward recognition. France doubtless would have felt constrained to follow suit. The failure of the conference also is a blow at MacDonald, whose policy of determining a nation's capacity for fair dealing was directly opposed to that of Secretary Hughes. The MacDonald policy consisted of recognizing first and then determining this vital point afterwards—something akin to placing the wagon before the horse.

Moscow, the conference developed, is completely in Communist hands. And so long as it remains so there is no prospect of universal recognition. Had Moscow been wise it would have made liberal concessions. But the Soviet has, apparently, a propensity for breaking off with friends when they are most needed.

INTRIGUING IN LATIN-AMERICA.

Brazil, according to one countryman who is in the United States on a visit, is a land of intrigue. Revolutions spring up suddenly and overnight and take the populace completely by surprise. In Brazil the air is sweet and pure and brilliant flowers adorn Brazilian hills.

The description is replete with splendid phrases which almost make one wish he could pack up belongings and live in Brazil. "A land of intrigue," he says. Intriguing what? Intriguing revolutionists or intriguing flower pots and flower gardens which beckon from the purple distances? Doubtless both.

The description might be carried on ad infinitum. For instance, Honduras might be called an intriguing country. Everybody and everything seems busy with intrigues. General Fonseca is on the march and Cholutec is trembling. Hondurian roses are in full bloom. In intriguing Mexico a Britisher was disposed of for motives not robbery. In Ecuador, intriguing Ecuador where palm trees line deep blue lagoons, the country is beset with strikes. All through Latin-America the air fairly bristles with pureness and sweetness and revolution. It is an intriguing district, just as Brazil is an intriguing country.

But despite these allurements, it is unlikely there will be a grand exodus south. Florida most likely will be the southern-most objective of American tourists. Despite the pretty flower beds and palm lined lagoons, America is intriguing enough to warrant staying at home.

In the obscurity of New York City's taxi cab rate war one thing seems certain, namely, that rates in the future will be much cheaper than in the past. Why taxi line owners did not decide upon this course years ago always will remain an inscrutable mystery. Taxi business in any city would double itself almost overnight were rates reasonable, taxi rides not a luxury and the cars brought down to within the reach of all.

The ruling of the New Jersey magistrate that dogs must not bark between 8 p. m., and 9 a. m., is interesting, but how is it going to be enforced?

Sells $55,000 Of Blue Grass Seed From Five Places

(Maitland Herald)

J. Q. Weller shipped out $55,500 worth of bluegrass seed this season. He shipped from Maitland, Skidmore, Barnard, Stanberry and Sheridan.

With the exception of one lot at $1.50, the rest of the seed was bought for $1.75 to $2. Only the very poorest brought less.

He shipped mainly to the Rudy Patrick Seed Co., at Kansas City, Mo., Nebraska Seed Co., at Omaha and Bret & Co., Paris, Ken.

The seed was bought from 72 persons besides the hand strippers. He shipped one car to Bret & Co. for which he paid $6,000. That carload a few years ago would have bought a nice little farm. Many farmers remember when land was $75 per acre and at this rate a car load of bluegrass like that would have bought an 80-acre farm.

One sack weighing 143 pounds brought $21.40.

The seed from the fair grounds brought $417. The Fair Association received $216 from the seed stripped from the grounds.

The best of seed brought as much as $40 an acre.

Coming at this time the bluegrass seed has been a method for the farmers to make money and also have the use of their pastures. There is money in bluegrass seed.

During the season of 1924 there was paid out for bluegrass seed through the Peoples Bank of Maitland by D. Gelvin for WoodfordSpears & Sons of Paris, Ky., the sum of $79,200.

It is very evident that this vast amount of money paid out to the farmers around Maitland and Northwest Missouri suggests an industry of gigantic proportions and especially when viewed in the light of its being just in its infancy in these parts.

It will be remembered that this product goes to Woodford Spears & Sons of Paris, Ky., the greatest bluegrass refiners and buyers in the world, and their name and fame is known all round the world.

The seed bought from the fertile fields of Northwest Missouri and shipped to the above firm is everywhere famous as seed of the highest quality and weight. It is sold in the United States for fields, lawns and golf links especially in the northeastern states, and in Germany for dyes.

Only last year Mr. Gelvin received an inquiry from official Germany wanting a sample of his seed, verifying the fact that Maitland is on the map when it comes to the bluegrass question.

It is worthy of mention that Ed Spears of the firm of Woodford Spears & Sons is a live wire and is always early on the grass field and bidding from 25 to 40 cents higher per bushel than other buyers and thus establishing a price for this territory. They have shown themselves to be gentlemen in every respect and have the confidence of every party with whom they have dealt.

It is noticeable also that the men who are sent here by the firm to receive the seed are men of high type and are thoroughly courteous and dignified and Mr. Gaston, who received the seed this year, had all of the qualities of their former men and bore the enviable record of not having a single dissatisfied customer.

It is a pleasure to deal with such a reliable firm and the men representing them.

No Monopoly in Oil

"I am told that the Standard Oil Company has practically all the refineries. Is this true?" a correspondent asks the Oil and Gas Journal.

Reply is made in issue of June 19, as follows: "It certainly is not. In the first place when you mention the Standard Oil Company you are speaking of several companies which, since the dissolution decree United States Supreme Court of 1911, are as separate in their ownership and control as any of the several thousand oil companies which operate in the United States.

"No company bearing the name of 'Standard' including its subsidiary organizations has more than 11 refineries in the United States. There are several of the so-called 'independent' companies which have from 5 to 9 refineries. According to the Oil and Gas Journal's compilation of May 1, there are 574 refineries in the United States of which 382 were operating on that date. Of this number only 39 belong to the several Standard Oil Companies and their subsidiary organizations. Thus you see that approximately only 1 out of 15 refineries belong to the Standard Companies."

The Standard Oil Companies loom much larger in the public mind than is warranted by the percentage of their refineries as compared with all other oil companies.

The Standard Oil Company (Indiana) has but six refineries — Whiting, Indiana; Sugar Creek, Missouri; Wood River, Illinois; Casper, Wyoming; Greybull, Wyoming: and Laramie, Wyoming.

The oil industry of today is of such vast proportions as almost to defy figures. Perhaps that is why it appeals so strongly to the imagination.

As the oil industry is organized today, a monopoly in oil, whether crude or refined, is beyond possibility. The industry is too enormous for dictation by any one company or any group of companies. It is too big and too varied for "understandings". It is too big for anything but the keenest sort of competition, and for the winning and holding of business through service.

The Standard Oil Company (Indiana) is strictly a competitive organization of service. That it is able to compete profitably with other oil companies is due solely to its initiative in invention of new methods and processes, and to its superior organization for the refining and distribution of oil products. In both of these capacities it is rendering an essential service to the thirty million people of the Middle West in such a way as to have gained their respect, confidence and esteem.

2 WOMEN SEEKING OFFICE NOMINATED

MRS. KATE MORROW'S PLURALITY IS 28,300

SEVEN ARE DEFEATED

Three Candidates Unopposed—Nelson and Baker Lead Increasing Steadily

St. Louis, Aug. 11.—While returns trickling in from missing precincts Saturday increased the leads of men candidates for major political office, chief interest in Tuesday's primary turned to the political fortunes of the twelve women seeking office.

The belated returns received today tend to indicate the defeat of seven of the women seeking nomination, the election of two, while three women candidates were unopposed.

Mrs. Kate Morrow of Warrensburg, the Democratic candidate for secretary of state and the first woman seeking a major state office, was the outstanding successful nominee. Returns today had increased her plurality to more than 28,300 over her two men opponents.

Mrs. Wing Has Lost.

The other candidate who apparently was successful also was Miss Sarah "Sallie" Turner of Kansas City, who sought the nomination for state representative on the Democratic ticket in the Fifth district, Jackson county.

Mrs. Edith Garver of Springfield, Socialist candidate for state treasurer; Miss Nellie Warmout of Kansas City, and Mayme H. Ousley of St. James, Phelps county, both Republican aspirants for the lower house of the legislature, were three unopposed for nomination.

Of the defeated candidates, probably the most notable was Mrs. Alice Cortis Moyer-Wing of Greenville, who sought the Republican nomination for congress in the Thirteenth district. The other candidates, who likewise apparently were defeated, were Katherine Famuliner, Republican, of Pleasant Hill, who ran for state senator; Miss Mellicene T. Smith of University City, and Miss Josephine Myers of Kansas City, Democrats; Mrs. Fred S. Freund, St. Louis; Pearl Holt, Braggadocie, Pemiscot county, and Miss Nora Powell of Princeton, Mercer county, Republicans, who sought nomination to the lower branch of the state legislature.

Baker, Nelson Leads Increase.

The returns today also had increased the respective pluralities of Sam A. Baker, Republican, and Arthur W. Nelson, Democrat, for the gubernatorial nomination. Baker's lead over Hiram Lloyd, his nearest opponent, was was more than 45,900 with 3,426 precincts reporting, while Nelson's plurality was in excess of 70,,500 with 3,532 precincts reported.

Of the three congressional races thought to have been in doubt, Scott Wolff, Democratic incumbent of the Thirteenth district, has a lead of more than 1,200 over his opponent with 218 out of 265 precincts reporting; R. E. Bailey, Republican of the Fourteenth, led J. F. Adams by more than 1,200 with 291 precincts reported, and W. O. Atkeson of Butler, had a plurality of 552 votees over Dr. H. W. Insley of Rich Hill, for the Republican nomination in the Sixth district.

In the race for lieutenant governor, Phil A. Bennett of Springfield, had a lead of 55,557 over Leslie Lyons of Kansas City, for the Republican nomination, while C. M. Buford of Ellington, led his nearest opponent by 16,192 in the Democratic race.

Otto and Jones Leads.

For Republican secretary of state, Charles U. Becker, led his nearest opponent by 113,152 votes.

For state treasurer, C. E. Stephens led by 72,774 for the Republican nomination while J. H. Stone of Adrian Democrat, led by 78,864.

For attorney general, R. W. Otto of Washington, had a plurality of 63,889 over his Republican opponent and E. O. Jones of Laplata, led the Democrats by 14,399.

For judge of the supreme court, division No. 1, Atwood led by 55,879, while William H. Allen has a lead of 24,609 for judge of the St. Louis court of appeals and John S. Farrington led by 2,963 for judge of the Springfield court of appeals.

200 Dairymen to Attend The Milwaukee Show

Will Use Special Train Out of Kansas City, Sept. 26—Exposition Will Last For Three Days.

Kansas City, Aug. 11.—Two hundred Kansas and Missouri dairymen will attend the National Dairy Exposition at Milwaukee September 26, using a special train out of Kansas City, known as the Southwest Dairy Special. Arrangements for the delegation have been made by the Kansas City Chamber of Commerce and the Kansas and Missouri State Agricultural Colleges. Three days, September 27, 28 and 29 will be spent in touring southeast Wisconsin studying methods used on some of the successful dairy farms. The party will reach Milwaukee Monday afternoon, September 29 where it will disband, each person remaining at the Dairy Exposition as long as he wishes.

Better dairying as taught at the National Dairy Exposition and as observed first-hand on the better dairy farms of Wisconsin, is the lesson to be taught on this trip, according to the committee in charge. It is not an effort to "Wisconsinize" Kansas and Missouri where many conditions are entirely different from those in Wisconsin. Herds will be inspected where the influence of the use of a good bull is shown in figures of production and dollars of profit. Results of cow testing association work in the breeding and feeding of a profitable herd will be an object lesson on these farms. Those problems which have been solved by the Wisconsin farmer and which have the same solution in the Southwest will receive greatest attention from the party.

A special rate of fare and one-third round trip has been secured for all points in Kansas and Missouri. Tickets go on sale September 26 and are good for return up to October 6. The Southwest Dairy Special will leave Kansas City over the Chicago, Milwaukee and St. Paul at 7:30 P. M., September 26. The party will detrain the next morning at Beloit and start its motor tour of 400 miles through southeast Wisconsin. Parlor motor coaches each with seating capacity of 22 persons will be used. Saturday night will be spent in Madison and Sunday night in Oconowooc, Wis.

A careful estimate shows that total cost of the trip will probably not exceed $75, including the three day tour and three days at the National Dairy Exposition.

Reservations for the trip should be made at once with the Kansas City Chamber of Commerce, according to Geo. W. Catts, Agricultural Commissioner for the Chamber. Reservations are to be accompanied by check for $17.25, covering $5.25 for lower pullman berth from Kansas City to Beloit, Wis., and $12 for 400 miles motor tour. If upper berth is used the total amount is $16.80.

Only 200 reservations can be accommodated. Already Harry A. Russell, Secretary of the Fort Scott Chamber of Commerce has requested one car of the train, Ira Drymon, County Agent of Bates County, Missouri, has five dairymen ready to go and many other communities are organizing delegations

The committee in charge of all arrangements is:

H. Umberger, Director of Agricultural Extension, Kansas State Agricultural College.

A. J. Meyer, Director of Agricultural Extension, College of Agriculture, University of Missouri.

J. B. Fitch, Chairman of Dairy Department, Kansas State Agricultural College.

E. M. Harmon, Dairy Specialist, College of Agriculture, University of Missouri.

Geo. W. Catts, Agricultural Commissioner, the Kansas City Chamber of Commerce.

Stephen Lamar Starts On Vacation In East

RUSSIANS SINGERS IN PLEASING PROGRAM

(Continued from Page One)

for humanity."

The motto and guide that she used in her campaign for senator of Minnesota was the preamble of the Constitution of the United States. She believes that the radio caused the deadlock in Democratic National Convention because the people back home were listening in and would send messages or letters to their representatives. The people back home had more of a hold on this convention than ever before and Mrs. Olesen believes that the influence of radio will make a difference in the meetings of Congress in Washington, D. C., when the representatives and senators know that the folks in their own state are listening to see how they vote.

She said that one of the influences women would have in politics and in holding office would be to decrease the great expenditure of money. "Most women,' she said, "are not used to handling great sums of money and they would be more careful about spending it." She also said that she believed that every city council, school board and every public board should have at least one woman on it.

"Political bosses do not like the women and women do not like the political bosses," she declared. She believes that there will be more of a tendency toward leaders instead of political bosses and that women are more likely to vote according to their own intuition.

They said, years ago, that 'the hand that rocked the cradle ruled the world' but it didn't. If that had been so we would not have had the Great War. The ballot in the hands of women is God's last hope against international war and if the woman is sitting with one hand on the cradle and a ballot in the other hand she is going to use that ballot to protect the child in the cradle."

She recalled how the nations of the world had listened when America spoke regarding the Monroe Doctrine; how they had paid heed regarding the countries in South America and then in China.

"America is going to speak again soon for international peace through the World Court and the League of Nations," Mrs. Olesen predicted in closing.

The play tonight, "Captain Applejack" is said to be the high point in the week's program and there will no doubt be a record breaking crowd in attendance.

Tomorrow afternoon the "kiddies" have their chance on the platform and the Junior Town has been getting ready all week for this big day when they will present a play for the "grownups." This pageant is in charge of Miss Anne Varner Baker and she has the assistance of several other artists.

The Baker company will give the prelude for the night's program. Miss Baker is a versatile entertainer and does such things as clay modeling, character impersonations and costumed songs. Miss Baker is ably assisted by Miss Mabel Sperry, a capable pianist and soloist on the zxlophone.

The lecture for the evening, "The Modern Tale of Two Cities" will be given by Charles H. Plattenberg, who is a good story teller and his talks are both humorous and true.

News From Over The County

Ravenwood Gazette

Mark Modglin and Miss Vivian Hensley left Sunday on No. 6 for Sauk Rapids, Minn., where they will join their parents, Mr. and Mrs. J. E. Modglin, who have purchased a restaurant and ice cream parlor at that place.

Mrs. Samuel Gooden of Athens, Texas, arrived here Monday afternoon for a visit with her son, E. C. Gooden and family.

Mr. and Mrs. Elmer Newcomer returned Tuesday from a motor trip of ten days to Yellowstone Park.

Miss Gertrude Conn left Wednesday evening of last week for Duluth, Minn., where she will join a party of friends, and all will proceed to Canada on a pleasure trip. On her return Miss Conn will visit her grandfather, Warren Irvin, and other relatives at Hasty, Minn.

Clearmont News

Will Linebaugh and wife, Edgar Pence and wife, John Wolfe and wife and Frank Rhodes and wife all returned home Sunday evening from their fishing trip up in Minnesota. They say it was awful cold up there and that they could wear their wraps most all the time. Strange as it may appear they have but little to say about their fishing exploits. They saw Rev. Ingram and family and say they are nicely situated and enjoy their new home.

Mrs. D. S. Clayton arrived here Tuesday night from Los Angeles, Cal., where she has been for some months.

Herbert Knobel was taken very sick one night last week. A physician was called, pronounced it appendicitis in the worst form and took him to a hospital at St. Joseph that night, by car, and he was operated on at once. At last reports he was getting along fine.

Later—he arrived home Tuesday night and is doing nicely.

Barnard Bulletin

Logan McGrew, son of Mr. and Mrs. Chas. McGrew of near Barnard, returned Saturday from Denver, Colorado, for a few days vacation. He returned Wednesday of this week and will take up the management of his uncle's theatre while his uncle is away on a vacation in California. Logan is a former student of the Barnard High School and graduated from the Graham High School in the class of 1924. He left for Denver, Colorado, soon after graduation and entered a school of law which he has attended the past season. He will re-enter the school the first of September for a nine month's term.

The merry-go-round at Barnard's The merry-go-round at aBranrd's first picnic, as we stated last week, was home-made, and operated by Henry Stalling and Jas. Rhoades. The proprietors cleared $55.00 from this first venture. The following week they took the device to Bolckow's celebration, ran it there—and lost $55.00. That ended the game.

Guilford Times

Martin Pederson and daughter, Selma, left Wednesday in company with his daughter-in-law Mrs. Pete Pederson, for Rochetser, Minnesota to consult the Mayo doctors regarding Mrs. Pederson's health. She has been poorly all summer and it is with the hope that these specialists may discover the ailment and effect a cure, that she is going. Martin thinks that while there, he also may consult them in behalf of his health.

Miss LaVeta McClanahan left for Chicago, Wednesday, where she will take a short special course in Dramatic Arts. She will have charge of the Dramatic Arts course at the Maryville S. T. C. this coming term.

Last Friday while hauling grain, Chas. Jackson was thrown from the spring-seat on the wagon onto the ground. The fall bruised his face, side and hip, which will lay him up in bed for several days.

John Whiteford of Oklahoma City is here visiting his brother Hugh and sister, Blanche Whiteford and looking after his farm interests.

R. L. Carter and John O. Nelson had the misfortune to lose a 12 or 14-ton stack of hay during the electric storm Tuesday afternoon. It was new hay and had just been put up.

Elmo Register

Al Woodard, a well known citizen of this locality, was thrown from a load of hay and badly hurt last week. It seems the wagon wheel dropped into a rut or hollow and tilted the load throwing Mr. Woodard off. It was necessary to take several stitches to sew up the wounds which were about the head and face. He is improving, and was able to be in town Tuesday.

A fire Monday evening at Ray Atherton's, who lives on the McIntyre farm in High Prairie, caused considerable damage.

Parnell Review

The Parnell fourth Free Chautauqua which closed Tuesday night, was one of the best programs ever held here, and was attended by large crowds. The committee for the 1925 chautauqua was appointed and is composed of the following: John O'Day, W. F. Kennedy, Chas. Evans, Mrs. W. C. Nelson and Miss Getha Conrad.

Mr. and Mrs. J. H. Pierpoint, Mr. and Mrs. Lloyd Pierpoint and son, Howard of Sistersville, West Virginia, motored to Parnell and are visiting relatives in this vicinity. Mr. Pierpoint is a brother of Mrs. E. J. Woodburn.

Carl T. Batt had the misfortune Tuesday morning to sprain his wrist while cranking his Ford.

Mrs. John Hood and Mrs. Chas. Florea went to Rochester Tuesday, to be with Mr. Hood who will undergo an operation at Mayo Bros. Hospital.

Mrs. B. A. Jones and daughter, Pauline, started last week on a motor trip to Colorado, they stopped at Topeka then on to Wichita, Kansas, where they are visiting Mrs. C. V. Roof and family.

MOVING PICTURES

The marriage of a physically shattered hero of the world war to a painfully plain little English governess, furnishes one of the most poignantly pathetic situations in "The Enchanted Cottage," First National picture, that is fascinating moviegoers at the Empire Theatre tonight and tomorrow.

Richard Barthelmess, the star, portrays Oliver Bashford, the crippled war veteran, while May McAvoy enacts Laura, the governess.

Rupture Expert Here

F. H. Seeley, of Chicago and Philadelphia, the noted truss expert, will personally be at the Linderman Hotel, and will remain in Clarinda Wednesday only, August 13. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast advancement over all former methods—exemplifying instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or Incissional ruptures (following operations) specially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions. Warning—All cases should be cautioned against the use of any elastic or web truss with undersraps, as same rest where the lump is and not where the opening is, producing complications necessitating surgical operations. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. He will be glad to demonstrate without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

P. S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seeley.

RED TOP COLUMBIAN GRAIN BIN
25% lower grain bin prices this year. Invention by our engineers of an automatic machine makes this possible. It takes flat steel sheets in at one end and turns them out at the other, accurately punched, flanged, corrugated and formed—ready to bolt together into sturdy Red Top Bins. It forms a 24 gauge, triple joint corrugated bin wall that is better than a plain 20 gauge, lap joint wall. Red Top Bins are of the same triple joint, corrugated construction, except 24 gauge walls, as famous Columbian Style "A" Bin of which more than 50,000 have been sold. Galvanized steel throughout. Galvanized roof has heavy coat of red metal preservative paint baked on under intense heat. Fully equipped—everything furnished except platform and chain. Thresh right into the Red Top Bin. CORN CONDITION 64 PER CENT NORMAL

(Continued from page one)

Pastures are 94 per cent normal against the 10-year average of 72 per cent and are usually good in all sections. Vegetables made favorable growth during July, and potatoes at 88 per cent of normal indicate 87 bushels per acre or 1,178,000 bushels against 9,300,000 last year.

Summer fruit prospects are fair, apples 56 per cent of normal, indicating a smaller commercial crop than last year. Some pears, plums and apples were hurt by winds and hail. Many farm apples are wormy. Howell County has a good peach crop. Peaches are very scarce north of Springfield.

General Missouri farm situation has improved, prices more favorable; livestock are in good condition, soil in fine shape for fall plowing; labor conditions steady; cotton is growing well with too much rain in some counties, but no serious insect damage excepting that red spiders are appearing.

Hookers To Ozarks.

Mr. and Mrs. Hal Hooker and daughter, Miss Halcyon Hooker, accompanied by Miss Edna Dietz, left yesterday morning on a motor trip through the Ozarks. They expect to return home next week by way of Sedalia where they will attend the Missouri State Fair.

Telephone Operators on Vacation.

Miss Fern McKee resumed work in the office of the People's Telephone Union today after a week's vacation. She visited her mother, Mrs. W. R. McKee of Pickering, and other relatives. Miss Dale Skinner, chief operator, will leave tomorrow for a few days' visit in Stanberry.

Zellis Thompson of Barnard was in Maryville today.

226 Entries In Dog Show At State Fair

Sedalia, Mo., Aug. 11.—The second annual Missouri State Fair Kennel Show closed August 7, with 226 entries. Nineteen different breeds of dogs will be benched at the show, and 130 individuals will compete for the $3,500 in premium money offered in the various classes.

The entries for the Kennel Show show a decided increase over the entries of last year, the first attempt by the Missouri State Fair to hold a dog show in conjunction with the annual exposition. Managers of the Kennel Show are elated over the prospects, and do not hesitate in saying that the best show seen during the year in Missouri may be seen from August 21 to 23, inclusive, the three days on which the dogs will be benched for the State Fair visitors.

Last year the dogs were benched four days, alternating among the different classes, but this year all dogs at the show will be on the bench the three days under which judging is held.

James Cole, of Kansas City, will judge the different breeds under the following program: Thursday, August 21, from 11 to 12 in the forenoon, Airdales and Beagles; in the afternoon from 2 to 5, Bloodhounds, Boston Terriers, and Bull Dogs. Friday, August 22, in the forenoon from 11 to 12, Collies, Fox Hounds, Smooth Fox Terriers, and Wire-haired Fox Terriers; in the afternoon from 2 to 5, Great Danes, Pekingese, Pointers and English Setters. Saturday, August 23, in the forenoon from 11 to 12, Irish Setters and Shepard dogs; in the afternoon from 2 to 5, Cocker Spaniels, Scottish Terriers, Russian Wolf Hounds, and miscellaneous classes.

The second annual Kennel Show will eb held in the Missouri State Fair Kennel Club Building, centrally located on the Fair Grounds, and with the most modern means of sanitation and ventilation. The dogs will not be brought to the Fair Grounds for entry until Thursday of Fair Week.

Mrs. Flossie Miller will leave this evening to visit Mr. and Mrs. Sam Miller and family and Mrs. James Davis of Bolckow and Mr. and Mrs. W. H. Fannon and family of Barnard for two weeks.

Miss Verna Goff returned yesterday evening from a week's vacation visit with Mr. and Mrs. W. H. Fannon and family in Barnard.

Platte County Returns Are Now All Reported

McDaniel Leads Lockwood in Race for Congressman From This District by 597 Votes

The nomination of John McDaniel of Savannah for representative in Congress on the Democratic ticket, was assured Saturday night when Platte County reported complete returns showing McDaniel 2,050 and Bart M. Lockwood, his opponent, 888.

With only three precincts in Atchison County unheard from, McDaniel now has a lead of 597 votes, too large a count to be affected by the three Atchison County precincts.

The total vote, with three precincts out, now stands:

	McDaniel	Lockwood
Andrew	1,094	84
Atchison	527	320
Buchanan	3,950	641
Holt	227	233
Platte	2,050	888
Nodaway	1,263	577
